

# eVu-TPS

## GETTING STARTED

The eVu-TPS: Getting Started online course is a simple and clear instructional session for professionals to learn to use the TPS sensor with the companion eVu Senz application. Biofeedback and self-regulation can be unfamiliar in the domain of tablet and mobile apps, regardless of whether you are a beginner in the field or a veteran health practitioner. This session is the appropriate training method to securely become acquainted with the power and functionality of the sensor, app interface and possibilities for your clients.

For the session, the instructor will guide you via "hands-on" learning using the TPS sensor and eVu Senz app.

*Unfortunately this course does not fulfill the continuing education requirements for BCIA recertification.*

### Course Format

The eVu-TPS: Getting Started course is a single 1-hour session. Course times are available throughout the day to suit your scheduling needs.

### ONLINE COURSE BENEFITS

- No travel expense: learn from the comfort of your own home or office.
- Private, 1-on-1 course between the participant and the instructor.
- While following course objectives, instructors are able to modify goals to best suit the needs and interests of the participant.

### OBJECTIVES AND OUTCOMES

At the end of this course, participants:

- Will know how to apply the eVu-TPS sensor for accurate data measurement.
- Will understand the three tiers of feedback (graphical, points, music) within the recording session.
- Will know how to modify the available training and practice session parameters.
- Will be able to interpret the saved data, directly within the app and within the emailed report.
- Can define 'what is an artifact', 'how do we know when artifacts are being generated', and how to minimize/avoid artifacts.

## To Register

Purchase the selected online course directly from the Thought Technology website or by contacting Thought Technology's Workshop Coordinator:

### Directly from the Website:

Go to "<http://thoughttechnology.com/index.php/online-overview>" and purchase the desired course either separately or included with a complete system. You will then be contact by the Workshop Coordinator to schedule the course.

### By contacting the Workshop Coordinator:

Tel: **1-800-361-3651 ext. 135**  
Tel: **(514) 489-8251 ext. 135**; Fax: **(514) 489-8255**  
E-mail: **workshops@thoughttechnology.com**

## Cancellation Policy

Cancellations must be received in writing if requested prior to 1 week before the course commencement date. You will receive credit towards a future course minus an administration fee of US\$ 50. Cancellations after this date forfeit registration fee. Thought Technology Ltd. reserves the right to cancel the course with full refund.

Please be advised ALL online training courses have a 1 YEAR EXPIRATION Date of Use from date of purchase. After which, all paid online training course fees will be NONREFUNDABLE.
